

Safety Training and Riding Skills Presented by the Irvine Police Department

IRVINE S ★ T ★ A ★ R ★ S

The STARS program provides K-8 students the knowledge and safety skills needed to commute within the City of Irvine as a cyclist or pedestrian.

STARS will cover these fundamental topics:

- Advice on traveling along safe routes
- Practical, emergency, and defensive riding
- Situational awareness and common courtesy skills
- Bicycle and equipment maintenance
- Pedestrian safety

The course will begin in the classroom to educate students on traffic laws, safe riding, proper equipment maintenance, and pedestrian safety.

Students will then participate in a fun and educational bicycle skills course.

Attendees must have basic riding skills prior to attending the course and are required to bring their own bicycle, helmet, and be accompanied by a parent or guardian.

WHO

K-8 students with basic riding skills
